Composites Science and Technology **45** (1992) 359–361

CONTENTS OF VOLUME 45

Number 1

Plasma surface treatment on carbon fibers. Part 1: Morphology and surface analysis of plasma etched fibers 1
L. Y. YUAN, C. S. CHEN, S. S. SHYU & J. Y. LAI (Taiwan)
Plasma surface treatments of carbon fibers. Part 2: Interfacial adhesion with poly(phenylene sulfide) 9
L. Y. YUAN, S. S. SHYU & J. Y. LAI (Taiwan)
Dynamic analysis of filament wound pipes undergoing low velocity transverse impact . 17
K. L. ALDERSON & K. E. EVANS (UK)
Effect of weave structure on mechanical fracture behavior of three-dimensional carbon fiber fabric reinforced epoxy resin composites 23
SHEN CHOU, HONG-CHU CHEN & HONG-EN CHEN (Taiwan)
Longitudinal compressive strength of a unidirectional fibrous composite 37
A. P. WILCZYNSKI (Poland)
Notched strength of long- and short-fibre reinforced polyamide 43
STAFFAN TOLL & CARL-GUSTAF ARONSSON (Sweden)
Overall buckling and postbuckling behavior of beam-like sandwich plates 55
JENG-SHIAN CHANG (Taiwan)
Transverse expansion of 2-D carbon/carbon laminates as a consequence of delamination 65
HERWIG PETERLIK (Germany), ANDREAS DOMNANOVICH, WOLFGANG KROMP & KARL KROMP (Austria)
In-situ determination of fiber strength and segment length in composites by means of acoustic emission 73
ABRAHAM MANOR & ROGER B. CLOUGH (USA)
Conference Diary 83

Number 2

Call for Data
Failure criteria for composite laminates 87
Improved analysis and experimental evaluation of the single filament pull-out test . . 89
K. R. JIANG & L. S. PENN (USA)
On the notched strength of composite laminates 105
YAO WEIXING (People's Republic of China)
An analytical method for predicting in-plane and interlaminar thermal expansion coefficients of laminated orthotropic rings 111
AJIT K. ROY (USA)
Effect of specimen width on the fracture of unidirectional metal matrix composites . 117
L. R. DHARANI, S. VENKATAKRISHNAIAH & R. A. DUPUY (USA)
Buckling of generally laminated composite plates 125
G. B. CHAI & K. H. HOON (Singapore)
Prediction of on-axes elastic properties of plain weave fabric composites 135
N. K. NAIK & V. K. GANESH (India)
On the single fibre pull-out problem: effect of loading method 153
LI-MIN ZHOU, JANG-KYO KIM & YIU-WING MAI (Australia)

Composites Science and Technology **45** (1992)—© 1992 Elsevier Science Publishers Ltd, England.

Determination of interlaminar shear strength for glass/epoxy and carbon/epoxy laminates at impact rates of strain 161
J. HARDING & Y. L. LI (UK)
A study of mode I delamination resistance of a thermoplastic composite 173
JIANG ZHOU, TIANBAI HE, BINYAO LI, WEILIAN LIU & TIANLU CHEN (People's Republic of China)
Letter to the Editor
Thermal buckling analysis of antisymmetric angle-ply laminates based on a higher-order displacement field 181
K. ROHWER (Germany)
Conference Diary 183

Number 3

Composites Research in Russia

Editorial 187
An experimental study of carbon/carbon composites 189
N. A. ALFUTOV, P. A. ZINOV'EV & O. S. SELYANIN (Russia)
Compression failure of unidirectional glass-fibre-resinforced plastics 201
S. L. BAZHENOV, A. M. KUPERMAN, E. S. ZELENSKII & A. A. BERLIN (Russia)
Structure and mechanical properties of oxide fibre reinforced metal matrix composites produced by the internal crystallizations method 209
S. T. MILEIKO & V. I. KAZMIN (Russia)
The fibre skeleton structure and transport properties of stochastically reinforced composites 221
A. K. STEPANOV, V. V. TVARDOVSKY & A. A. KHVOSTUNKOV (Russia)
Delamination at openings in composite plates 229
V. V. PARTSEVSKY, M. I. SPERANSKY & S. M. BELIAEV (Russia)
Structure and properties formation of metal matrix composites 233
A. A. ZABOLOTSKY (Russia)
A numerical analysis of laminated elastic–plastic plates under dynamic loading . 241
B. D. ANNIN & V. M. SADOVSKY (Russia)

Manufacturing and mechanical characterization of unidirectional polyethylene-fibre/polyethylene-matrix composites 247
C. MARAIS & P. FEILLARD (France)
Environmental stress corrosion of hybrid fibre composites 257
MARK A. FRENCH & GEOFFREY PRITCHARD (UK)
Fracture properties of PMR-15/graphite-fiber composites 265
ALAMGIR FAROUK & NOSHIR A. LANGRANA (USA)
Conference Diary 279

Number 4

The fatigue properties of weft-knit fabric reinforced epoxy resin composites 283
SHEN CHOU, HONG-CHU CHEN & CHE-CHUN LAI (Taiwan)
The influence of the elastic properties and dimensions of coatings on the stiffness of encapsulated fiber composites 293
PERICLES S. THEOCARIS & CONSTANTINE B. DEMAKOS (Greece)
Thermal expansion and stress relaxation of metal-matrix composites 307
H. MYKURA & N. MYKURA (UK)
Effect of strain rate on interlaminar shear properties of carbon/epoxy composites . . 313
B. BOUETTE, C. CAZENEUVE & C. OYTANA (France)

Contact finite element analysis of three- and four-point short-beam bending of unidirectional composites 323
WEI CHENG CUI & MICHAEL R. WISNOM (UK)
Pultruded fibre reinforced polyurethane composites I. Process feasibility and morphology 335
CHIN-HSING CHEN & CHEN-CHI M. MA (Taiwan)
Pultruded fibre reinforced polyurethane composites II. Effect of processing parameters on mechanical and thermal properties 345
CHIN-HSING CHEN & CHEN-CHI M. MA (Taiwan)
Conference Diary 353
Subject Index 356
Author Index 358
